

## Help us feed hungry children in Mwandi...

A hungry child has a significantly lower ability to concentrate and, as such, a lower desire to play or study. Research shows that a lack of food slows thinking, saps energy and stunts growth. Hunger affects more than 800 million people around the world.

Mwandi Village is situated on the banks of the great Zambezi River, 150km west of Livingstone. The Mwandi Orphans & Vulnerable Children Project works with members of the Mwandi community to support, love, feed, educate and provide practical assistance to those children most in need. There are around 10,000 people in the village with close to 2000 orphans. 28% of people in Mwandi are HIV positive and around 40% of the under-5 population are malnourished.

The Feeding Program is providing meals to 260 children per day, six days per week. This is often the only meal a child will get each day. Children receive multi-vitamins and they clean their teeth after each meal before participating in afternoon activities such as: reading books, playing games, sports and with toys - many activities that these children have never experienced before. Most importantly the children receive Christian devotions and LOVE.

**The Western Province of Zambia is currently experiencing a crippling drought, so more than ever we need your help to continue this vital program.**

*For just \$10 a week you can feed an orphan in Mwandi. Please help us continue to make a difference to the lives of orphans & vulnerable children in Mwandi village & surrounding communities*

**YES! I would like to support the Mwandi OVC Project Nutrition Support Program and change a child's life...**

**Please find my details below:**

Name: .....

Address: .....

.....

Email: ..... Phone: .....

Please find enclosed:
